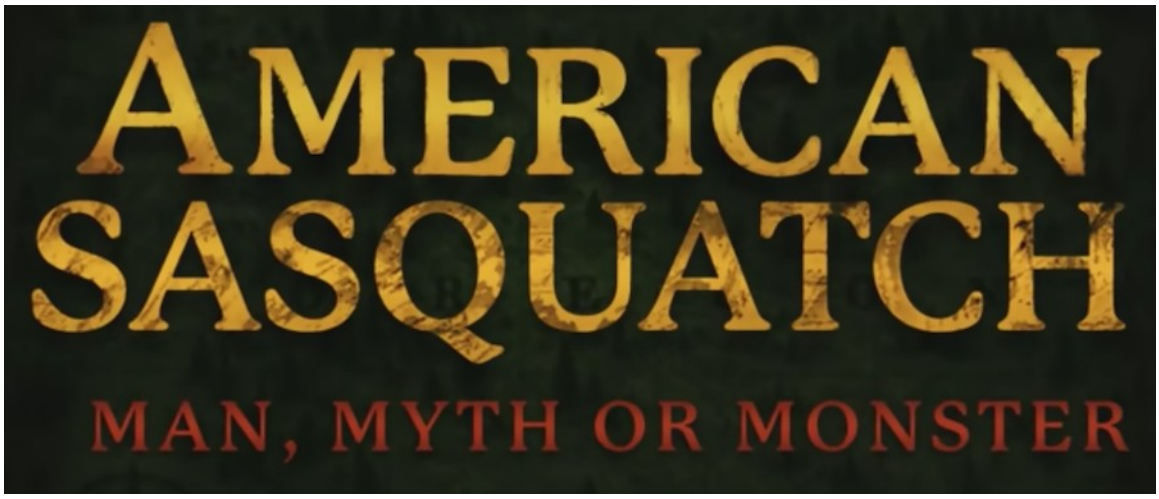
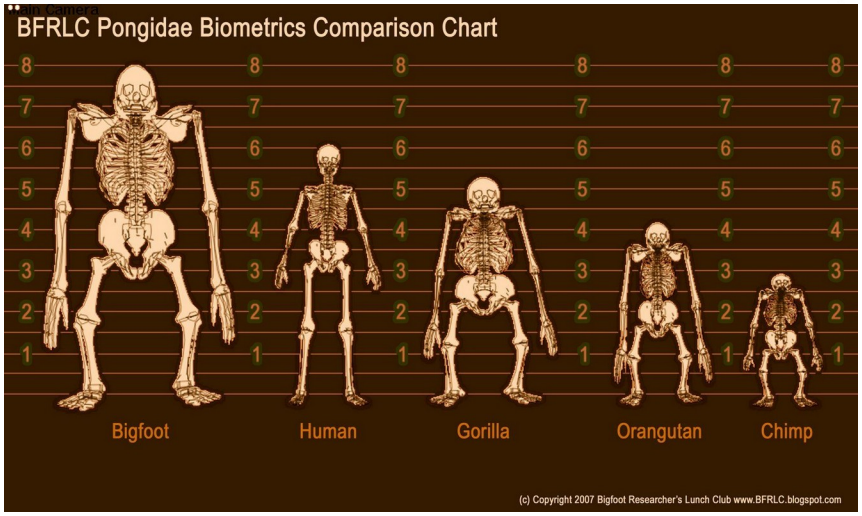
BIGFOOT AND DOGMAN MAYBE PART OF A GLOBAL DESTRUCTION MOVEMENT SOON



I have listened to so many Bigfoot video's I cannot began to count them. I am a sort of Sherlock Holmes digging for clues about the events going on today regarding what some refer to as the End of the Ages time frame where many ages are ending and new ones are beginning.

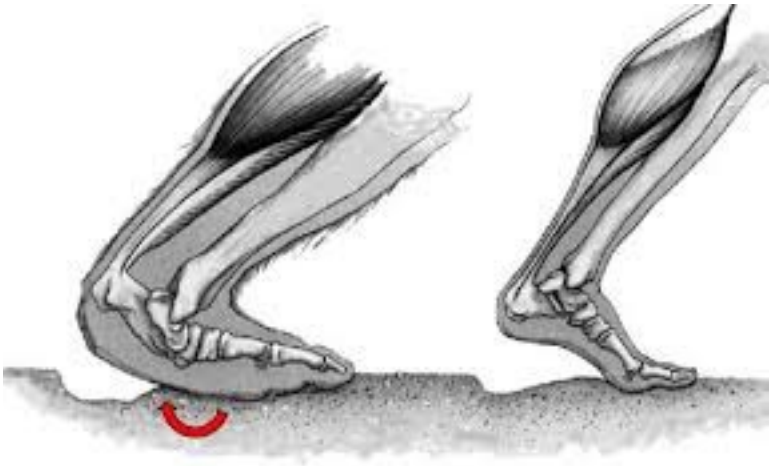
What I am noticing is a huge difference between what I see online regarding pictures Bigfoot that do not represent what

they really looks like. When you listen to researchers like David Paulides who created the 411 Missing Persons network, who I trust on the subject, you will find that Bigfoot has Indian Mitochondria DNA and that Indians refer to them as brothers. Indians were not talking about hairy apes they were talking about hairy human beings who the ancients referred to by many names including the Nephilim Giants. Every culture had their own name for them and their looks varied depending on how much OTHER DNA they were born with. They are all alien human hybrids not primates so to speak.



Strange, elongated skulls reveal ...

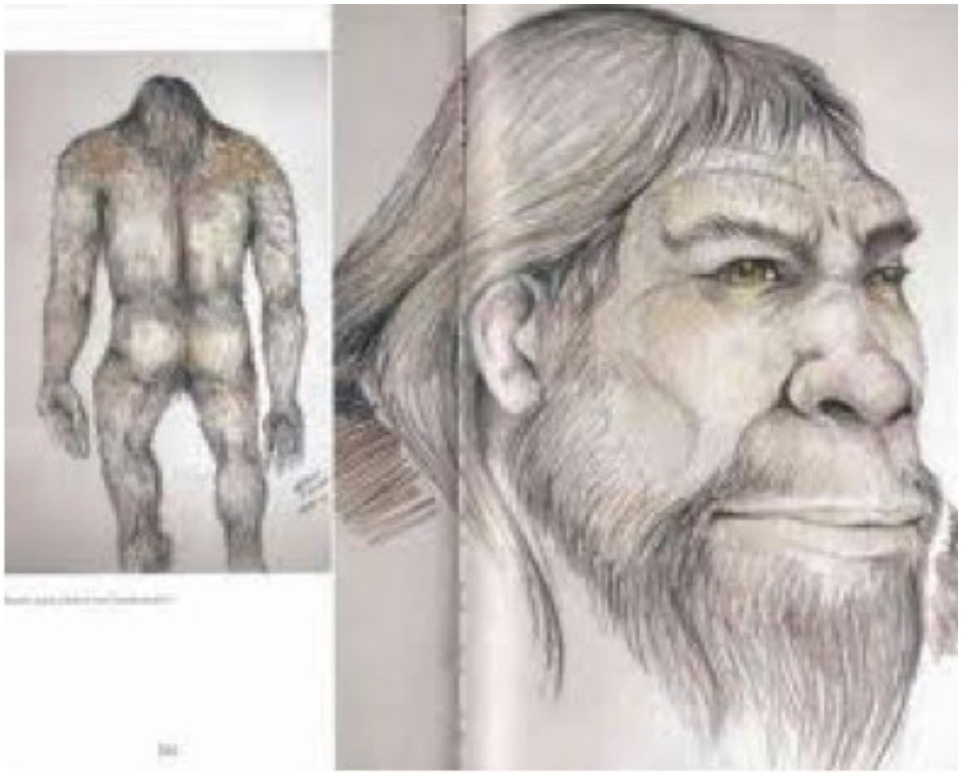
Many giant skeletons of them have been found around the world that are also referred to as "the giants."



Foot with No Arch compared to human foot

Notice her human looking eyes and big but not flat nose

Notice the expression on her face because she has been seen and is being filmed.



This is the Patterson Gimlin face from David Paulides forensic artist without the hair but notice the human eyes

Below are a few pictures to give you a better idea of how I think they appear in America. We have the Patterson Gimlin version of Bigfoot above, which has a more ape looking body with a more human looking face. The face and back images above are an artistic forensic version of what Bigfoot would look like without all the facial hair, once again courtesy of David Pauliedes.

There are different varieties of Bigfoot but my point here is that those who actually see them say their face and movements look human. They are referred to as hybrid beings that aliens have genetically engineered into existence and in some if not all cases are still being used by aliens today as their HEAVY LIFTERS or as their BOOTS on the GROUND. They appear to be hard wired with technology we are not familiar with today. The DEEP STATE is well aware of this and is also engaging in genetic engineering of these chimera.

Isaiah 56:9 and Exodus 23:29

AI Overview

Isaiah 56:9 is a judgment prophecy where God calls the "beasts of the field and forest" to devour his people, symbolizing the judgment that will come upon them because their spiritual leaders are corrupt, blind, and self-serving. The verses that follow describe these leaders as "mute dogs" and "shepherds" who are greedy, complacent, and more interested in their own gain than in caring for the flock.

- **A call to judgment:** "Come, all you beasts of the field, come and devour, all you beasts of the forest!" This is a divine command for destructive forces to attack, representing a time of severe judgment for Israel.
- **Corrupt leadership:** The reason for the judgment is the failure of Israel's leaders, who are described as blind, ignorant, and unable to protect the people ("mute dogs, they cannot bark").
- **Self-serving shepherds:** These leaders are likened to shepherds who "all turn to their own way, they seek their own gain" and "are greedy dogs which can never have enough".
- **Inversion of roles:** This passage depicts a reversal of the natural order: the flock is vulnerable to being preyed upon by outside forces because their supposed guardians are not fulfilling their role.
- **Contrasting with true leadership:** The warning is often contrasted with God's plan to bring salvation to all nations and the role of true spiritual leaders who are selfless and focused on nourishing the flock, as seen in the New Testament with the "Good Shepherd" concept, notes Bible Hub.

Bible lore refers to them as the Beasts of the fields and forests that are going to wage war on the evil leaders of Israel today who are primarily in Europe and America today. They are clearly here on earth or as some would say, "They're BACK."

They seem to bother people who are the bloodline descendents of the leaders of the alien human hybrid Israelite tribes today. They hunt by DNA as does Dogman. How they detect human DNA is not known but you can count on the fact they use built in technology to do it.

David Paulides tells us that the people who go missing are often very smart people. Hundreds of years ago Scandinavians living in Germany bred with these Khazarian Zionists who migrated into Germany. They started the Nazi Party in Germany. It appears to be those descendents who are disappearing in forests today. Let's say those who have more Zionists Khazarian and British Isle blood known as Serpents blood to the ancients.

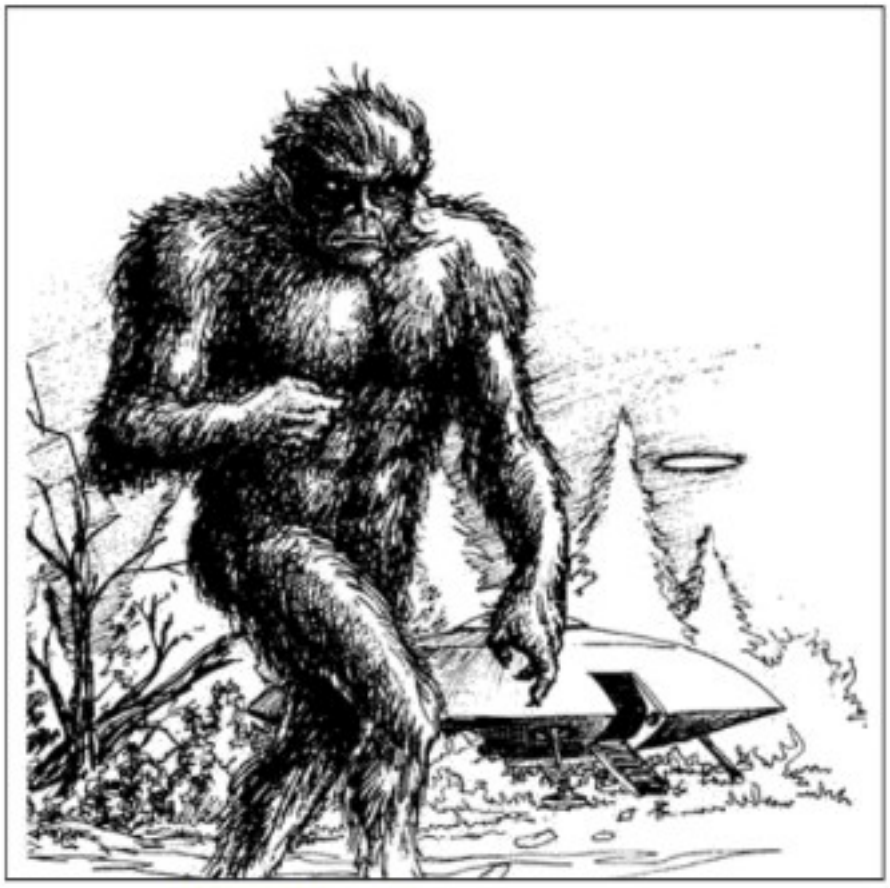
They are basically those with dark hair dark eyes from the Middle East and what is referred to as the Tuatha De Danaan tribal bloodlines with red hair and green eyes.

Some claim Bigfoot is friendly and will leave gifts etc. It would appear to me that those people do not carry much Khazarian Zionist aka Turkish, Semite or Tuatha De Dannan Middle Eastern DNA in their bodies are those that Bigfoot and Dogman seem to leave alone or make friends with. Indian blood is also related to the Solutrean Indians, which is why Indians encounter them.

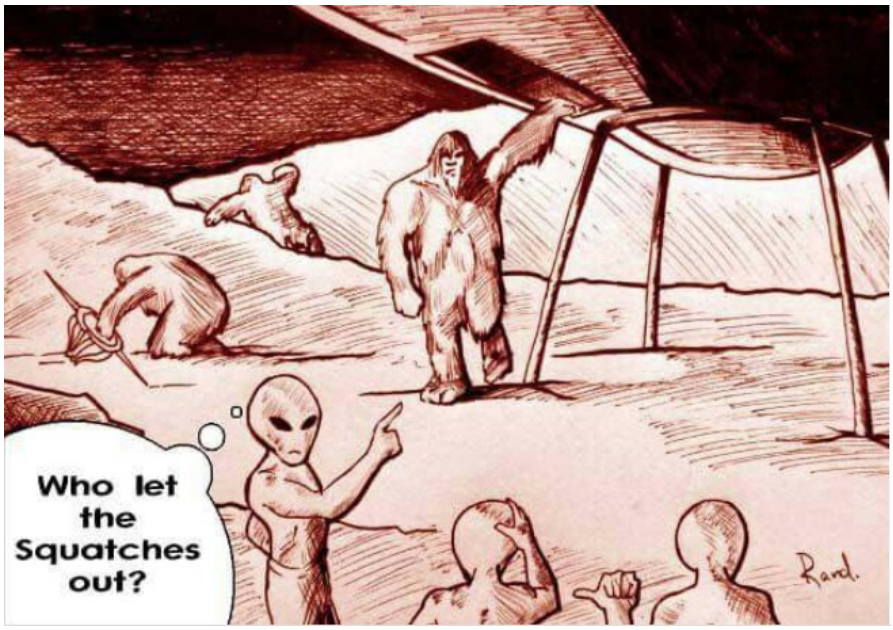
They appear to have their UFO Pilots License

COULD UFO'S ALIENS BIGFOOT AND DOGMAN BE THE COLLECTORS OF THESE EVIL DEEP STATE BLOODLINES TODAY

Most who are taken are never seen again



A wave of Bigfoot and UFO combined sightings occurred in Pennsylvania in 2010.



If you DIG DEEPER it appears that the DEEP STATE are developing their own Bigfoot and Dogman hybrids today that will be unleashed on the earth soon.

Prophecy tells us that they will be part of a killing spree that will kill 1/4 of these evil bloodline populations today to make way for the "Meek who will inherit the earth."

WE ALSO HAVE THE ANCIENT ONES WITH HUMAN FACES

Kewaunee Lapseritis

Holistic Health Consultant, Master Herbalist and Master Dowser with background in anthropology, psychology, conservation and holistic health Kewaunee Lapseritis has researched Sasquatch for the last 60 years. Kewaunee pioneered the introduction of several ideas to the study of Sasquatch. One is that the there is a UFO connection, which he refers to as the Starpeople, to the Sasquatch phenomenon. Another is that there are different types of Sasquatch, for instance, that there are three separate races of them on the North American continent: the ape-like ones, the dog-faced ones and the *Ancient Ones* with a human face. Yet another is the use of telepathy/mindspeak to communicate with the Sasquatch People. These are but a few of many ideas Kewaunee has introduced to the study.

Kewaunee and his wife Kelly champion the cause that the Sasquatch people wish to assist people in improving, healing themselves, relationships, and perspective realities. To assist in these goal, they host the Psychic Sasquatch Spiritual Retreat and Conferencean international event at the Chewelah Peak Learning Center.

To learn more visit his webpages at either www.sasquatchpeople.com or www.psychicsasquatch.com

Books by Kewaunee:

Nazi German Scientists have also been dabbling into these types of hybrid genetics also it's not just Aliens creating, abducting and tweaking alien human hybrids. This is going on in secret underground bases and on UFO's

<u>QUESTIONS AND ANSWERS</u>

Do Dogman And Bigfoot Have Shared Origins?

- Unlike Dogman, Bigfoot lacks canine features and resembles a giant primate, with some theories linking it to ancient human ancestors or supernatural forces.

- Both creatures are considered elusive, with reports of disappearing or being unfindable, fueling supernatural theories.

Do Dogman And Bigfoot Have Shared Origins?

- Some believe Bigfoot might be interdimensional or supernatural, capable of moving between different worlds or realities.
- The idea of a shared metaphysical origin suggests both creatures could be part of a larger spiritual or otherworldly realm.
- Despite different physical descriptions and origins, the supernatural perspective hints at a possible deeper connection beyond scientific explanation.
- The video concludes that these beings might be different expressions of the same hidden, spiritual truth, beyond our current understanding.

Do Dogman And Bigfoot Have Shared Origins?

- The video questions whether Dogman and Bigfoot share origins or connections.
- Dogman is described as a creature with a human-like body and a dog or wolf head, with reports dating back to 1887 in Michigan.
- Native American legends, especially from the Odawa tribe, mention wolf-like bipeds similar to Dogman, suggesting an older mythological background.

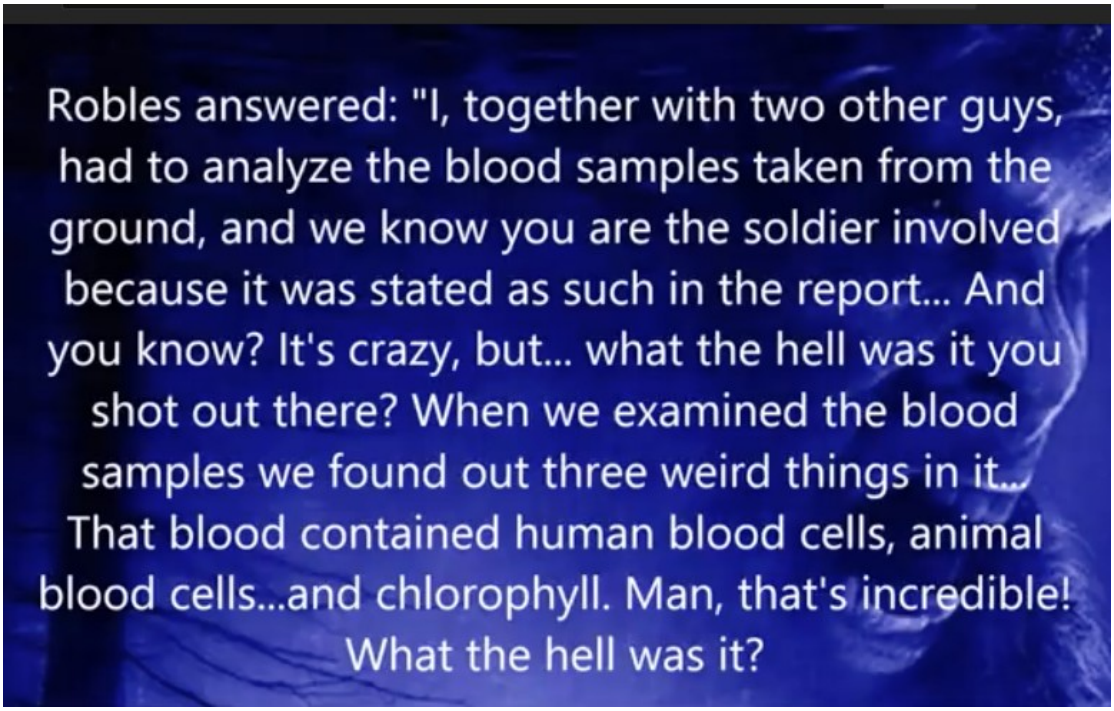
Do Dogman And Bigfoot Have Shared Origins?

- Some compare Dogman to mythological figures like Anubis or European werewolves, highlighting a fascination with hybrid creatures.
- Dogman is typically seen as slim, with shaggy brown fur and sharp canine eyesight, but it does not change shape or curse people like werewolves.
- Bigfoot, or Sasquatch, is depicted as a large, hairy, ape-like creature mainly sighted in North America, especially the Pacific Northwest.

Do Dogman And Bigfoot Have Shared Origins?

- Unlike Dogman, Bigfoot lacks canine features and resembles a giant primate, with some theories linking it to ancient human ancestors or supernatural forces.

- Both creatures are considered elusive, with reports of disappearing or being unfindable, fueling supernatural theories.



Robles answered: "I, together with two other guys, had to analyze the blood samples taken from the ground, and we know you are the soldier involved because it was stated as such in the report... And you know? It's crazy, but... what the hell was it you shot out there? When we examined the blood samples we found out three weird things in it... That blood contained human blood cells, animal blood cells...and chlorophyll. Man, that's incredible! What the hell was it?

"Liquid **chlorophyll** may be what's called a "**blood builder**." This means it can potentially increase the count of red **blood** cells and improve their quality. Red **blood** cells contain a molecule called hemoglobin, which has a very similar chemical structure to **chlorophyll**.

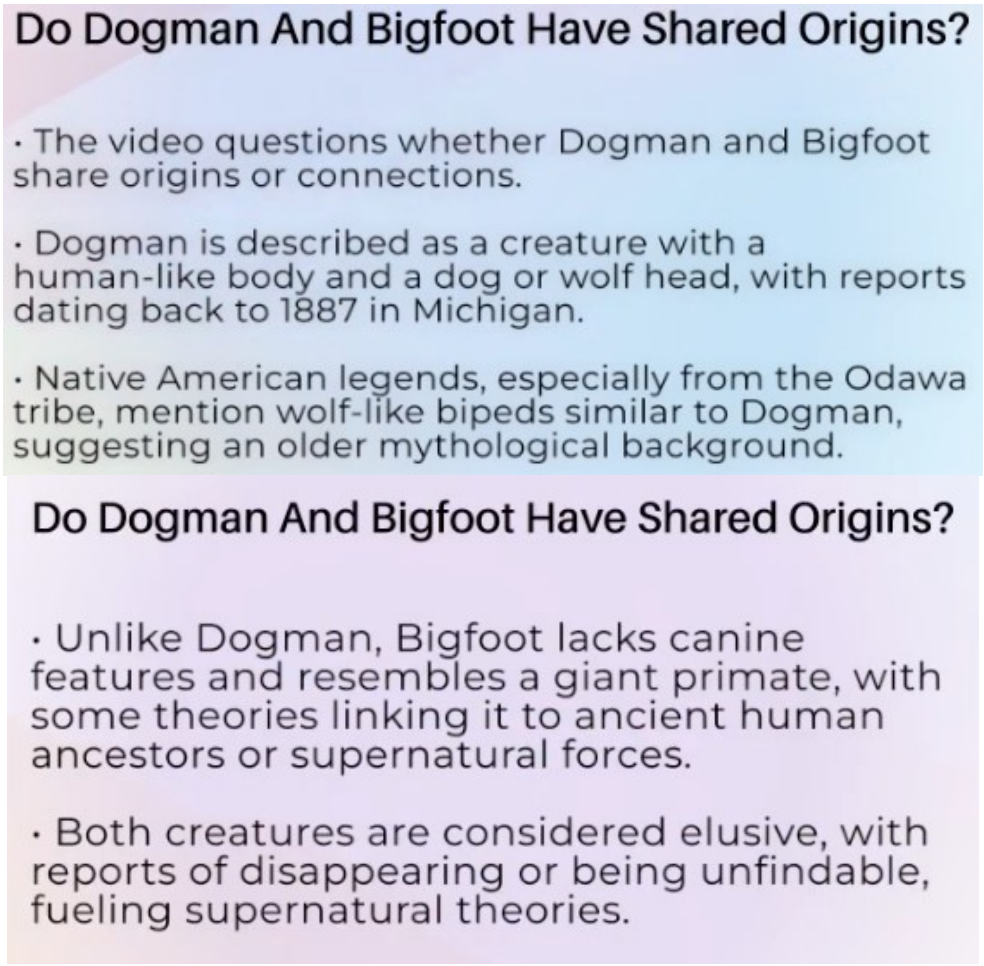
My point is to look at the eyes and you will see a human being
not a primate

Hunters don't shoot them because they look to much like a hairy man.



Do Dogman And Bigfoot Have Shared Origins?
· The video questions whether Dogman and Bigfoot share origins or connections.
· Dogman is described as a creature with a human-like body and a dog or wolf head, with reports dating back to 1887 in Michigan.

· Both creatures are considered elusive, with reports of disappearing or being unfindable, fueling supernatural theories.

If you put your Bibles down and DO YOUR HOMEWORK instead you will discover that the REAL JESUS also had those technical skills and could walk into crowd and disappear. This tells us that this technology is OTHER WORLDLY some refer to it as spiritual in nature. My point is that the world we live in today is surrounded by technologies that we do not understand yet.

<u>Not everything happening around us can be seen in our 3-dimensional world. I don't think we still truly understand how birds can fly.</u>

IN CONCLUSION

REVELATION CHAPTER 6
8 AND I LOOKED, AND BEHOLD A PALE HORSE: AND HIS NAME THAT SAT ON HIM WAS DEATH, AND HELL FOLLOWED WITH HIM. AND POWER WAS GIVEN UNTO THEM OVER THE FOURTH PART OF THE EARTH, TO KILL WITH SWORD, AND WITH HUNGER, AND WITH DEATH, AND WITH THE BEASTS OF THE EARTH.

NOW PUT THAT IN YOUR CROCK POT AND COOK IT DEEP STATE

It would appear that the Deep State and all of its Puppet government payers, agencies, industries, corporations, Big Pharma and the JROCCC CONTROLLAR etc., would total around 1/4 the earths population. Is that a coincidence? I DON'T THINK SO. Look up those of you who worship JESUS ONLY NOT THE JROCCC ideologies are going to be the big winners soon.
